

## Pin Assignment

- Diagram illustrating the connection of the RP 10K resistor to the P1 and P2 headers:
- | Header | Pin | Signal | Color |
|--------|-----|--------|-------|
| P1     | 1   | VBUS   | Red   |
|        | 2   | Dn1    | White |
|        | 3   | Dp1    | Green |
|        | 4   | GND    | Drain |
|        | 5   | CC     | Brain |
| P2     | 1   | Shell  |       |
|        | 2   | Shell  |       |
- The RP 10K resistor is connected between the GND pin (P1 pin 4) and the CC pin (P1 pin 5).
